PRESS RELEASE

Headed by Grammy award-winning musicians Nicolas Barry and Tomas Jacobi, Circle of Sound is devoted to crafting ideas into viscerally emotive music and sound design for film, television and new media.

Located in Pacific Palisades, California, Circle of Sound has created and licensed original music to enhance commercial campaigns for clients such as Target, T-Mobile, Microsoft, Yahoo! and Converse, to name a few. Barry and Jacobi also scored the Warner Brothers' animated TV series "Mucha Lucha Gigante!" as well as several projects for organizations dedicated to the arts such as KCRW and RedCat Theater.

In addition, Circle of Sound has been working alongside visionary documentary and short filmmakers to create engaging and distinctive scores, displaying their use of rare instrumentation to create emotionally invoking layers and rhythms. Two of their latest projects are currently festival bound.

The multi-talented composing team is also active in the LA Indie music scene as performers and producers, recently completing the latest album from local emerging artist "Old War Shirt".

BIOS

NICOLAS BARRY

For the last 12 years, composer/producer Nicolas Barry has earned great success in the music industry. His music has been featured in numerous feature films, TV shows, commercials and Grammy awarded albums. He has also been actively performing around the world as a multi-instrumentalist for several rock, jazz and experimental bands. Nicolas graduated Magna Cum Laude from Berklee College Of Music with a dual major in Film Scoring and Composition, and he is also the recipient of the Charles Mingus Award for outstanding achievement in composition.

TOMAS JACOBI

Tomas graduated Cum Laude from Berklee College Of Music with a dual major in Composition and Film Scoring. His great talent as composer/producer has led him to work with major TV and film studios. Outside the scope of writing music, Tomas is an active talented multi-instrumentalist performer in the LA area. With a great passion for rare instruments, Tomas Jacobi has become a master performer of the Hang Drum, a pitched-percussive instrument that gives a unique cinematic sound to his music. Tomas was also granted the Esterhazy String Quartet Award for achievement in composition
